THE PREMIUM OPTION

Aged care can be confusing. There is a lot of options out there & it is hard to know where to start. The information in this booklet will provide you with the knowledge you need to make choices about your home care or your loved one's care. We will explain what home care is, the services that can be provided, & steps to get the process underway.

What is Doctor Alert?

Doctor Alert is a range of telecare service that helps you, or the person you care for, to continue living at home for as long as possible with the world class personal alarm services for elders at home.

Who We Are?

Doctor Alert operates as a leading telecare health monitoring & emergency response centre providing a comprehensive, low-cost integrated package of solutions in healthcare services. Our commitment is to offer the latest technology & skilled resources to bridge the gap between providers & consumers.

MAKE SURE YOU COULD GET
HELP AT A MOMENT LIKE THIS

*Only Auto Fall Detection Feature can call
for Help, when you can't*

YOUR SECURITY OUTSIDE

Waterproof

THE WATCH

We deliver the watch to you.
It is ready to use!

1. WHEN PRESSED

If necessary & 24 hours a day, a simple press on the button of the watch is enough to launch the alert. It is effective all over the UK and Europe, wherever you are!

2. HELP !

We communicate with you through the watch's loudspeaker. Depending on the situation, we will call on a relative, a neighbour, or emergency services if necessary. In addition, with the geolocation of the watch, the emergency services immediately know where you are!

- ✔ Time and alert functions.
- ✔ Geolocation
- ✔ Effective all over the UK and Europe
- ✔ 48-Hours battery life

▶ THE CARER OPTION

PHONE CALLS

Subscribers can call the Authorised contacts on their watch.

GEOLOCATION

Emergency Response Team has a real-time location tracking system to find the exact Geo-positioning of the watch which helps to send immediate help in accurate place.

FALL ALERT

Fall Detection works to sense the sudden movement of a fall. Falls with severe impact allows the watch to trigger alarm to our 24/7 monitoring center. If you are unable to press the button, the Doctor Alert Personal alarms will automatically call our emergency operators through the inbuilt two-way call feature. And its water resistant, so it works if you're in the shower or outside in the rain.

"Doctor Alert spoke to us via the pendant and carried out a VERY thorough testing exercise to ensure BOTH the Fall Alarm and the Pendant worked all over the house and outside. I was reluctant to get one for my mum being 89 & VERY hard of hearing, but even she could hear the operator loud and clear through the unit. Excellent service..."

Mrs Ogston

Emergency Assist Button

In the event of an emergency, the watch will be able to alert contacts when the SOS button is held down.

Introducing Well Being Calls

What does it do?

Our friendly operators call you on your telephone to prompt daily routine duties, medication or just see how you are that day.

By telephone

Call 0800 520 0168 for sales. Our telesales team are available Monday - Saturday, 8am - 6pm.

Call 0129 373 0851 for customer support. Our Customer Services is open 24*7
